Springettsbury Township
York County, PA

Dear Ms. Armstrong:

In reponse to your letter:

1. Ridge Developers, Inc. no longer conducts business. The corporation was originally formed to develop the above referenced site, but due to prior activites conducted on the site by third parties having no connection with Ridge, this was not practical. As a result, no development of this site was ever undertaken by Ridge.

2. The corporation has been in existence since February of 1983, however, because of the problems with this site, no substantial business activites were ever conducted by Ridge, nor was the site ever developed. I am currently in the process of dissolving the corporation.

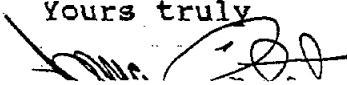

3. Ridge currently does not conduct business, however, correspondence may be forwarded to my attention at 1114 Roosevelt Avenue, York, PA.

4. & 5. I am the sole officer and director of Ridge, and have been since the date of incorporation. Since Ridge never engaged in any substantial business activity, my primary activity was signing tax returns that show losses. No activity was ever conducted at the site. My daytime telephone number is (717) 846-2192.

6. The EPA need not contact anyone to gain access to the site, in that such rights were given to you by Ridge, in writing several weeks ago.

7. Copies of the corporate Tax Returns are enclosed.

Yours truly
